ALSO, I

Am a human rights charity trustee

Run a monthly comedy night

Organise a local pub quiz

I have worked for seven years in **developing client relationships** and **understanding user needs**. Much of this time has involved **creative problem solving** and **delivering against high expectations**.

I am now looking to join an **ambitious and collaborative team**.

WORK EXPERIENCE

Founders and Coders, Course facilitator 📄

2020 – present | London, UK

I run Europe's most selective tech bootcamp, supporting and mentoring 16 smart and diverse people in learning modern fullstack web technologies, and preparing them for life after graduating.

Criminal Appeals Fund, Developer and UX/UI lead

London, UK

A platform for barristers to seek funding to appeal cases where certain criteria set by the product owner are met.

I led the UX/UI function, arranging user testing and designing scripts and interviews based on sessions with our PO and creating our style guide.

Work in Progress, Developer and QA lead 📄

London, UK

A React app for graphic designers where they can upload works in progress to get feedback from other professional creatives.

I worked on building the server, Express routes, and React components on the front end, as well as designing the database and its testing library.

Shelter, New Corporate Partnerships Manager

2018 – 2020 | London, UK

Building strategic partnerships with organisations to support our national homelessness services.

I led on an ambitious campaign to end housing benefit discrimination, pushing for a web tool that made me realise that my passion lies in building tech to make the world a better place.

Great Ormond Street Hospital Charity, Corporate Partnerships

2015 – 2018 | London, UK

EDUCATION

Founders and Coders 📄

London, UK

- Highly selective peer-led web development course
- Top ten bootcamp in Europe 📄

Durham University, Mechanical Engineering (New & Renewable Energy)

2009 – 2013
